

Environmental Policy

At **PRODESA Group**, we are committed to protecting the environment and promoting sustainability in all our activities. Our environmental policy guides our decisions and actions, seeking to minimize impacts, conserve resources, and encourage responsible practices for the benefit of the environment and future generations.

We are committed to:

1

Legal and regulatory compliance

Complying with all environmental laws, regulations, and requirements applicable to our operations.

2

Pollution prevention

Reducing emissions, waste, and discharges through responsible and sustainable processes.

3

Efficient use of resources

Optimizing the consumption of energy, water, and materials, promoting the circular economy and efficiency across all processes.

4

Continuous improvement

Implementing actions for the ongoing review and continuous improvement of our environmental performance.

5

Awareness and training

Promoting environmental awareness and training for all staff to ensure sustainable practices.

6

Collaboration with stakeholders

Working together with clients, suppliers, and communities to promote sustainability beyond the organization.
